NOTES TO THE FINANCIAL STATEMENTS
as at 31 March 2025 and for the period then ended

1. CORPORATE INFORMATION

BIDV Securities Joint Stock Company ("the Company") is a joint stock company established under the Law on Enterprise of Vietnam, pursuant to License for Establishment and Operation No. 02/GPHĐKD issued for the first time by the State Securities Commission on 26 November 1999 and amendments of License for Establishment and Operation of the securities company issued by the State Securities Commission. As at 31 March 2025, the Company is operating under:

<i>Licenses' name</i>	<i>Issued date</i>	<i>Issued by</i>
License no. 64/GPĐC-UBCK	28 August 2024	State Securities Commission
Business Registration No. 0101003060	Issued for the first time on 31 March 2000, amended for the 28 th time on 28 August 2024	Hanoi Department of Planning and Investment

The company was established on the basis of equitization of Bank for Investment and Development of Vietnam Securities Limited Company. On 19 July 2011, the Company's shares were officially listed on the Ho Chi Minh Stock Exchange with security code of BSI.

The current principal activities of the Company during the current year are to provide brokerage service, securities trading, securities investment consulting, financial consulting, underwriting for securities issues, custodian services and other operations in compliance with the regulations applicable to securities companies.

The Company's Head Office is located at the 8th, 9th Floors, Thai Holdings Tower, No. 210 Tran Quang Khai Street, Hoan Kiem District, Hanoi, Vietnam. As at 31 March 2025, the Company has one (01) branch in Ho Chi Minh City and two (02) transaction offices located in Hanoi.

As at 31 March 2025, The Company's number of employees is 299 people (as at 31 December 2024: 302 people).

Company's operation

The Charter of the Company has been approved under Resolution No. 02/NQ-DHĐCD dated 14 April 2023 of the General Meeting of Shareholders and amended by Resolution No. 648/NQ-BSC dated 09 September 2024 of the Board of Directors of BIDV Securities Joint Stock Company

Capital

As at 31 March 2025, total charter capital of the Company is VND 2,230,607,010,000 (as at 31 December 2024: VND 2,230,607,010,000).

Investment restrictions

The Company is required to comply with Article 28, Circular No. 121/2020/TT-BTC dated 31 December 2020 providing guidance on operation of securities companies and other applicable regulations on investment restrictions. The current applicable practices on investment restrictions are as follows:

- ▶ Securities company is not allowed to invest, contribute capital to invest in real-estate assets except for the purpose of use for head office, branches, and transaction offices directly serving professional business activities of the securities company;
- ▶ Securities company may invest in real-estate as prescribed in Clause 1 above and fixed assets on the principle that the carrying value of the fixed assets and real-estate investment should not exceed fifty percent (50%) of the total value of assets of the securities company;

- ▶ Securities company is not allowed to use more than seventy percent (70%) of its owners' equity to invest in corporate bonds. Securities company, licensed to engage in self-trading activity, is allowed to trade listed bonds in accordance with relevant regulation on trading bonds transaction;
- ▶ Securities company must not by itself, or authorize another organization or individuals to:
 - Invest in shares or contribute capital to companies that owned more than fifty percent (50%) of the charter capital of the securities company, except for purchasing of odd lots at the request of customers;
 - Make joint investment with an affiliated person of five percent (5%) or more in the charter capital of another securities company;
 - Invest more than twenty percent (20%) in the total currently circulating shares or fund certificates of a listing organization;
 - Invest more than fifteen percent (15%) in the total currently outstanding shares or fund certificates of an unlisted organization, this provision shall not apply to member fund, ETF fund or open-end fund certificates;
 - Invest or contribute capital of more than ten percent (10%) in the total paid-up capital of a limited company or of a business project;
 - Invest more than fifteen percent (15%) of its owners' equity in a single organization or of a business project;
 - Invest more than seventy percent (70%) of its total owners' equity in shares, capital contribution and a business project, specifically invest more than twenty percent (20%) of its total owners' equity in unlisted shares, capital contribution and a business project.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

2. BASIS OF PRESENTATION

2.1 *Applied accounting standards and system*

The financial statements of the Company are prepared and presented in Vietnam Dong ("VND") and in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated 30 December 2014 ("Circular 210"), Circular No. 334/2016/TT-BTC dated 27 December 2016 ("Circular 334") amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular No. 210/2014/TT-BTC, Circular No. 114/2021/TT-BTC dated 17 December 2021 providing guidance on financial regime applicable to securities companies and fund management companies other Vietnamese Accounting Standards promulgated by the Ministry of Finance as per:

- ▷ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 1);
- ▷ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 2);
- ▷ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 3);
- ▷ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of six Vietnamese Standards on Accounting (Series 4); and
- ▷ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of four Vietnamese Standards on Accounting (Series 5).

2.2 *Applied accounting documentation system*

The Company's registered accounting documentation system is the General Journal.

2.3 *Fiscal year*

The Company's fiscal year starts on 01 January and ends on 31 December.

2.4 *Accounting currency*

The financial statements are prepared in Vietnam Dong ("VND"), which is also the accounting currency of the company.

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS

Management of the Company confirms that the Company has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of financial statements.

Accordingly, the accompanying statement of financial position, income statement, statement of cash flows, statement of changes in owners' equity and note to the financial statements, including their utilization are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position, results of operations, cash flows and changes in owners' equity in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Changes in accounting policies

The accounting policies used by the Company to prepare the financial statements have been applied consistently with those used to prepare the financial statements for the year ended 31 December 2024.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, bank deposits for sale of underwritten securities and deposits for clearance and settlement of securities transactions of the Company and short-term, highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

Cash deposited by customers for securities trading and cash deposited by securities issuers are presented off-balance sheet

4.3 Financial assets at fair value through profit and loss ("FVTPL")

Financial assets recognized at fair value through profit and loss are financial assets that satisfy either of the following conditions:

- a) It is classified as held for trading. A financial asset is classified as held for trading if:
 - ▶ It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
 - ▶ There is evidence of a recent actual pattern of short-term profit-taking; or
 - ▶ It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).
- b) Upon initial recognition, a financial asset is designated by the entity as at fair value through profit and loss as it meets one of the following criteria:
 - ▶ The classification eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognizing gains or losses on a different basis; or
 - ▶ The financial assets are part of a group of financial assets which are managed and their performance is evaluated on a fair value basis, in accordance with the Company's risk management policy or investment strategy.

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

Increase in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous year is recognized into the income statement under "Gain from revaluation of financial assets at FVTPL". Decrease in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous year is recognized into the income statement under "Loss from revaluation of financial assets at FVTPL".

Transaction costs relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the income statement.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Held-to-maturity investments ("HTM")

Held-to-maturity investments are non-derivative financial assets with determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity, except for:

- a) Those that the entity upon initial recognition designates as at fair value through profit or loss;
- b) Those that the entity designates as available for sale; and
- c) Those meet the definition of loans and receivables.

HTM financial investments are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, agent fee, issuance agency fee and banking transaction fee). After initial recognition, HTM financial investments are subsequently measured at amortized cost using the effective interest rate.

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or irrecoverability (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the year of a financial asset or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter term to the net carrying amount of the financial assets or financial liabilities.

HTM investments are subjected to an assessment of impairment at the financial statement date. Provision is made for an HTM investment when there is any objective evidence that the investment is irrecoverable or there is uncertainty of recoverability, resulting from one or more events that has occurred after the initial recognition of the investment and that event have an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Loans

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, excepted for:

- a) The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;
- b) The amounts categorized by the Company as available for sale upon initial recognition; or
- c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available for sale.

Loans are initially recognized at cost. After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate method.

Amortized cost of loans is the amount at which the loan is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or un-collectability (if any).

Loans are subject to an assessment of impairment at the financial statement date. Provision for loans is made based on estimated loss, which is calculated as the difference between the market value of the securities used as collateral for the loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

4.6 Available-for-sale ("AFS")

Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as:

- a) Loans and receivables;
- b) Held-to-maturity investments; or
- c) Financial assets at fair value through profit or loss.

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, available-for-sale financial assets are subsequently measured at fair value.

Difference arising from the revaluation of AFS financial assets in comparison with previous year is recognized under "Gain/(loss) from revaluation of AFS financial assets" in "Other comprehensive income after tax" which is a part of the income statement.

At the financial statements date, the Company assessed whether there is any objective evidence that an AFS financial asset is impaired. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans".

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Available-for-sale ("AFS") (continued)

Where an equity instrument is classified as available-for-sale, evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its original cost. "Significant" is to be evaluated against the original cost of the asset and "prolonged" indicates the period in which the fair value has been below its original cost. When any evidence of impairment exists, provision is determined as the difference between the AFS asset's cost and fair value at the assessment date. Where a debt instrument is classified as available-for-sale, the assessment of impairment is conducted using the same criteria as those applied for HTM investments. When there is any evidence of impairment, provision for an AFS asset is determined as the negative difference between its fair value and amortized cost at the assessment date.

4.7 Fair value/market value of financial assets

Fair value/market value of the securities is determined as follows:

- ▶ For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- ▶ For unlisted securities registered for trading on the Unlisted Public Company Market ("UPCoM"), their market prices are the closing price on the most recent trading days up to the date of securities valuation;
- ▶ For delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date;
- ▶ The actual market price for unlisted securities and securities unregistered for trading on the Unlisted Public Company Market ("UPCoM") is the actual trading prices of the latest transaction on over-the-counter ("OTC") market, based on the most recent financial statements of issuers as at the date of financial statements;

For securities which do not have reference price from the above sources, the revaluation is determined based on the financial performance and the book value of securities issuers as at the assessment date.

For the purpose of determining CIT taxable profit, the tax bases of financial assets are determined by cost minus (-) provision for diminution in value. Accordingly, market value of securities for provision purpose is determined in accordance with Circular No. 48/2019/TT-BTC and Circular No. 24/2022/TT-BTC amending and supplementing several articles of Circular No. 48/2019/TT-BTC ("Circular 48").

Subjects of provisioning do not include government bonds, government-guaranteed bonds, and municipal bonds.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Reclassification of financial assets

Reclassification when selling financial assets other than FVTPL

When selling financial assets other than FVTPL, securities companies are required to reclassify those financial assets to financial assets at FVTPL. The difference arising from the revaluation of financial assets AFS which is recognized in "*Difference from revaluation of assets at fair value*" will be recognized as corresponding revenue or expenses at the date of reclassification of financial assets AFS for selling purpose.

Reclassification due to change in purpose or ability to hold

Securities companies are required to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- ▶ Non-derivative financial assets at FVTPL or financial assets that are not required to classify as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.
- ▶ Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and to be reassessed at fair value. The difference arising from revaluation between carrying value and fair value are recognized under "*Difference from revaluation of assets at fair value*" in Owners' equity.

4.9 Derecognition of financial assets

A financial asset (or part of a group of similar financial assets) is derecognized when:

- ▶ The rights to receive cash flows from the asset have expired; or
- ▶ The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either:
 - The Company has transferred substantially all the risks and rewards accompanying the asset; or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred the right to use the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered a transfer arrangement; and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Long-term investment in financial assets

Other long-term investments

Other long-term investments are recognized at cost in the Company's financial statements. Dividends distributed from profit after tax of other long-term investments are recognized as income in the income statement.

Provision for loss of other long-term investments is made when there is evidence showing that there is loss in the value of those investments at the end of the financial year. An increase or decrease in the balance of the provisioning account is charged to financial expenses in the year.

4.11 Recognition of mortgaged financial assets

During the year, the Company had mortgaged/pledged financial assets which are used as collaterals for financial obligations of the Company.

According to the terms and conditions of the mortgage/pledge contracts, during the valid period of the contracts, the Company is not allowed to sell, transfer or use the mortgaged/pledged assets under repurchase or swap contracts with any other third party.

In case the Company is unable to fulfil its obligations, the mortgagee/pledgee is allowed to use the mortgaged/pledged assets to settle the obligations of the Company after a period specified in the mortgage/pledge contracts, since the obligations due date.

The mortgaged/pledged assets are monitored in the Company's statement of financial position in accordance with accounting principles relevant to the assets' classification.

4.12 Receivables

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences, having serious illness (with hospital confirmation), have deceased, or debts that have been requested for law enforcement but cannot be performed due to the debtor having fled; debt that have been sued for debt collection but the settlement of the case has been suspended.

Increases or decreases to the provision balance are recorded in the income statement as "Operating expenses" for the year.

The Company has made provision for doubtful receivables and handling irrecoverable receivables are as follows:

<u>Overdue period</u>	<u>Provision rate</u>
From six (06) months to less than one (01) year	30%
From one (01) year to less than two (02) years	50%
From two (02) years to less than three (03) years	70%
From three (03) years and above	100%

For receivables that are not overdue, the Management also evaluates the expected recoverability of these debts to determine the corresponding provision.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.13 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises of its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use, and the costs of dismantling and removing the asset and restoring the site on which it is located, if any.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the income statement.

4.14 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortization.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the income statement.

4.15 Depreciation and amortization

Depreciation and amortization of tangible fixed assets and intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Machinery and equipment	3 - 10 years
Means of transportation	6 - 10 years
Other fixed assets	4 - 7 years
Software	3 - 8 years

4.16 Operating lease

Whether an agreement is determined as a property lease agreement depends on the nature of the agreement at the beginning; whether the implementation of the agreement depends on the use of a certain asset and whether the agreement includes clauses on the use rights of the asset.

Rental fee respective to operating leases are charged to the income statement on a straight-line basis over the term of the lease.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.17 Prepaid expenses

Prepaid expenses, including short-term prepaid expenses and long-term prepaid expenses in the statement of financial position, are amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as prepaid expenses and are amortized over the period which has been covered in the prepaid amount or up to three (03) years to the income statement:

- ▶ Office renovation expenses;
- ▶ Office rental expenses;
- ▶ Insurance fees;
- ▶ Software services extension, maintenance and warranty expenses.

4.18 Borrowings and bonds issued

Borrowings and bonds issued by the Company are recorded and stated at cost at the end of the accounting year.

4.19 Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future for bonds interest payables, goods and services received, whether or not billed to the Company.

4.20 Covered warrants payables

Covered warrants are secured securities with collateral assets issued by the Company which gives its holder the right to buy an amount of underlying securities at an exercise price or to receive a sum of money equal to the difference between the price (index) of the underlying securities and the exercise price (exercise index), when the former is higher than the latter, upon execution.

When covered warrants are issued, the Company records an increase in covered warrant payables, at the same time monitoring the number of covered warrants still allowed to be issued. At the end of the year, the Company revalues the covered warrants at fair value. The decrease in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Gain from financial assets at FVTPL" (detail as "Gain from revaluation of outstanding covered warrant payable"). The increase in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Loss from financial assets at FVTPL" (detail as "Loss from revaluation of outstanding covered warrant payable").

The costs relating to the purchase and issuance of covered warrants are recognized as purchase costs of financial assets at FVTPL in the income statement. Profit or loss resulted from covered warrants when repurchase, upon the maturity of covered warrants or when covered warrants is recalled, are recognized in "Gain from disposal of financial assets at FVTPL" or "Loss from disposal of financial assets at FVTPL" in the income statement.

The securities used as hedging for the covered warrants are monitored by the Company. At the end of the year, securities used as hedging for the covered warrants are revaluated at fair value and the differences arising from revaluation is recorded in the same way as recognising revaluation of financial assets at FVTPL.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.21 Employee benefits

4.21.1 Post-employment benefits

Retired employees of the Company will receive retirement benefits from the Social Insurance under the Ministry of Labor and Social Affairs. The company is required to contribute to these post-employment benefits by paying social insurance for each employee at the rate of 17.5% of the basic monthly salary, salary allowance and other supplements. Other than that, the Company has no further obligations.

4.21.2 Severance allowance

According to Article 46 of the Labor Code No. 45/2019/QH14 which is effective from 01 January 2021 and Decree No. 145/2020/ND-CP of the Government providing guidance on executing some articles of the Labor Code on working conditions and labor relations, the Company has the obligation to pay a severance allowance equal to half a month's salary for each working year to employees who voluntarily resign and fully meet factors in accordance with provisions of law. Working time to calculate severance allowance is the total actual working time of the employee at the Company minus the time the employee has participated in unemployment insurance in accordance with the law regarding unemployment insurance, and the working time that has been paid severance allowance by employers. The average monthly salary used in this calculation is the average monthly salary of the latest six-month period up to the resignation date.

4.21.3 Unemployment insurance

According to Article 57 of the Law on Employment No. 38/2013/QH13 which is effective from 01 January 2015 and Decree No. 28/2015/NĐ-CP dated 12 March 2015 of the Government providing guidelines for the Law on Employment in terms of unemployment insurance, the Company is required to contribute to the unemployment insurance at the rate of 1% of salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the unemployment insurance fund.

4.22 Currency derivative contract

The Company participates in foreign currency transactions which provide services such as: foreign currency forward transactions, foreign currency swap,... for the purpose of hedging and mitigating risks of exchange rate and cash flow in the future. Gain/loss arising from transactions during the year is recognized in the income statement.

4.23 Treasury shares

Owner's equity instruments issued by the Company which are reacquired (treasury shares) are recognized at cost and deducted from owners' equity. No gain or loss is recognized upon purchase, sale, issue or cancellation of the Company's owner's equity instruments.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.24 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of receipts or receivables less trade discount, concessions and sales return. The following specific recognition criteria must also be met before revenue is recognized:

Revenue from brokerage services

When the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion. Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Revenue from trading of securities

Revenue from trading of securities is determined by the difference between the selling price and the weighted average cost of securities sold.

Other income

Revenues from irregular activities other than turnover-generating activities are recorded to other incomes, including: revenues from asset liquidation and sale; fines paid by customers for their contract breaches; collected insurance compensation; collected debt which had been written off and included in the preceding year expenses; payable debts which are now recorded as revenue increase as their owners no longer exist; collected tax amounts which now are reduced and reimbursed; and other revenues recorded as other incomes as stipulated by VAS 14 - Revenue and other income.

Interest income

Revenue is recognized on accrual basis (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends and profit distribution income

Income is recognized when the Company's entitlement as an investor to receive the dividends is established, except for stock dividend in which only the number of shares is updated.

Other revenues from rendering services

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion.

Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

4.25 Borrowing costs

Borrowing costs include accrued interest and other expenses which are directly attributable to the Company's borrowings. Borrowing costs are recorded in income statement on an accrual basis.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.26 *Cost of propriety securities sold*

The Company applies moving weighted average method to calculate cost of proprietary securities sold.

4.27 *Corporate income tax*

Current income tax

Current income tax assets and liabilities for the current and prior year are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the reporting date.

Current income tax is charged or credited to the income statement, except when it relates to items recognized directly to owners' equity, in which case the current income tax is also dealt with in owners' equity.

Current income tax assets and liabilities are offset only when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax

Deferred tax is provided, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of recognized or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting year.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available for these taxable assets to be usable. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be usable.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the accounting year in which the asset is recovered or the liability is settled, based on the tax rates and tax laws in effect at the reporting date. Deferred tax is recorded in the income statement, except when it relates to items recognized directly to owners' equity, in which case deferred tax is also recorded in owners' equity.

Deferred tax assets and deferred tax liabilities are offset if the Company has a legally enforceable right to offset current tax assets against current tax liabilities, and deferred tax assets and deferred tax liabilities relating to income tax are levied by the same tax authority on the same taxable entity or the Company intends to either settle the current tax liabilities and current tax assets on a net basis, or to recover the assets simultaneously with the settlement of the liabilities in each future year when the material amounts of the deferred tax liabilities or deferred tax assets are paid or recovered.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.28 Owners' equity

Contributed capital from shareholders

Contributed capital from stock issuance is recorded in Charter Capital at par value.

Undistributed profit

Undistributed profit comprises of realized and unrealized undistributed profit.

Unrealized profit during the year is the difference between gain and loss arisen from revaluation of financial assets at FVTPL or others through profit and loss in the income statement, and the deferred income tax related to the increase in revaluation of FVTPL financial assets and others.

Realized profit during the year is the net difference between total revenue and income, and total expenses in the income statement of the Company, except for gain or loss recognized in unrealized profit.

Reserves

The Company uses annual profits after-tax to set up funds in accordance with the Resolution of the General Meeting of Shareholders.

4.29 Profit distribution

Net profit after corporate income tax may be distributed to investors after being approved at the Annual General Meeting of Shareholders and after appropriation to reserve funds in accordance with the Company's Charter and provisions of Vietnamese law.

4.30 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the year attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.31 Segment information

A segment is a distinct identifiable component of the Company that is engaged in providing related products or services (business segment) or in providing products or services within a particular economic environment (geographical division). Each of these segments is subject to risks and rewards that are different from those of the other segments.

The Company's business segment is primarily defined based on the services provided to investors. Management determines the geographical segment of the Company based on the location of the assets.

4.32 Related parties

Parties are considered related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and the other party are subject to common control or significant influence. Related parties can be companies or individuals, including close members of their families.

4.33 Nil balances

Items or balances required by Circular No. 210/2014/TT-BTC dated 30 December 2014 and Circular No. 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance that are not shown in these financial statements indicate nil balances.

7. FINANCIAL ASSETS

Concepts of financial assets

Cost

Cost of a financial asset is the amount of cash or cash equivalents paid, disbursed or payable for such financial asset at its initial recognition. The transaction costs incurred directly from the purchase of financial asset might or might not be included in the cost of the financial asset, depending on the category that the financial asset is classified in.

Fair value/market value

The fair value or market value of a financial asset is the price at which the financial asset would be traded voluntarily between knowledgeable parties on an arm's length basis.

The fair value/market value of securities is determined using the method described in Note 4.7.

Amortized cost

Amortized cost of a financial investment (which is debt instrument) is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative recognized using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or un-collectability (if any).

For presentation purpose, provision for diminution in value or un-collectability of financial assets is recognized as "*Provision for impairment of financial assets and mortgage assets*" on the statement of financial position.

Carrying amount

Carrying amount of a financial asset is the amount at which the financial asset is recognized in the statement of financial position. Carrying amount of a financial asset might be recognized at fair value (for FVTPL and AFS financial assets) or at amortized cost (for HTM investments and loans), depending on the category that the financial asset is classified.

- Loss from revaluation of AFS financial assets	(5,780,770,000)	-
Total	(5,780,770,000)	-

33. BASIC EARNINGS PER SHARE

Earnings per share is calculated by dividing the net profit after tax attributable to ordinary shareholders of the Company by the weighted average number of outstanding ordinary shares issue during the year. The profit after tax attributable to ordinary shareholders for the period ended 31 March 2025 is calculated as the profit after corporate income tax after deduction for setting up non-shareholders' reserves according to the actual appropriation ratio of 2024. For the purpose of preparing financial statements, other comprehensive earnings have not been added to after-tax earnings to calculate the earnings per share indicator since there are no detailed guidance:

	<i>Current period</i>	<i>Previous period (Restated)</i>
Profit after tax attributable to ordinary shareholders - VND	81,115,038,976	137,148,427,862
Decreased adjustment due to appropriation to bonus and welfare fund - VND (*)	-	-
Profit used to calculate earnings per share - VND	81,115,038,976	137,148,427,862
Weighted average number of ordinary shares to calculate basic interest on shares - Shares	223,060,701	223,060,701
Earnings per share - VND	364	615

(*) According to the guidance in Vietnamese Accounting Standard No. 30 - Earnings per share, if the number of ordinary shares outstanding increases due to capitalization, issuance of bonus shares, split shares, or decreases due to When compounding shares, the Company retroactively adjusts "Basic earnings per share" for all reporting periods. Accordingly, the weighted average number of ordinary shares outstanding in 2024 is adjusted for the number of ordinary shares issued to pay dividends to existing shareholders in 2025.

34. OTHER INFORMATION (continued)

34.3. Operating lease commitments

The Company has lease assets under operating lease arrangements. At the end of the financial period, the committed future rental payments under the operating lease agreements are as follows:

Currency: VND

	<i>Ending balance</i>	<i>Beginning balance</i>
Within 1 year	43,935,345,900	43,498,901,886
From 1 to 5 years	171,799,667,880	168,989,875,824
More than 5 years	24,924,517,512	33,722,826,110
Total	240,659,531,292	246,211,603,820

34.4. Purposes and policies of financial risk management

The Company's activities may be subject to a number of financial risks including market risk, credit risk and liquidity risk. In general, the Company's risk management policies are aimed at minimizing the potential adverse effects of these risks on the results of the Company's business.

The Board of Directors of the Company is responsible for setting objectives and basic rules of financial risk management for the Company. The Management establishes detailed policies such as risk identification and risk measurement, investment limits and investment strategies. Financial risk management policies are reviewed and adjusted regularly to cope with market fluctuations and trends.

Financial risk management is carried out by the Risk Management Department. The Risk Management Department measures the actual investment against the investment limit that has been set and prepares periodic reports for the Management to consider.

Credit risk

Credit risk is the risk that the Company incurs financial losses due to a party to a financial instrument failing to fulfill obligations or commitments signed with the Company. This risk arises mainly from financing activities, including bank deposits, financial assets, accounts receivable and other assets.

Bank balances

Bank balances include demand deposits, term deposits, interest receivables and deposits.

All bank deposits of the Company are deposited at credit institutions with high credit ratings. The balance with the bank is regularly monitored by the treasury department in accordance with the Company's policy and periodically reported to the Management. The Company considers the credit risk associated with balances at banks to be low.

As at 31 March 2025 and at 31 December 2024, the balances with BIDV Bank - the parent bank accounted for over 10% of the Company's equity.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

34. OTHER INFORMATION (continued)

34.4. *Purposes and policies of financial risk management* (continued)

Credit risk (continued)

FVTPL financial assets

The Company's listed and unlisted securities are only traded at or subjected to the regulations of the Ho Chi Minh City Stock Exchange and Hanoi Stock Exchange or with counterparties with a clear credit rating. All trading activities for listed and unlisted securities are paid or paid at the time of delivery of the securities through approved brokers. The risk of non-payment is considered very small because the transfer of securities is carried out only when the broker receives payment. The purchase payment is made only when the broker has received the securities. If one of the parties is unable to fulfill its obligations, the sale transaction is considered unsuccessful.

The debt securities held by the Company are corporate bonds, government bonds, and bonds issued by credit institutions, which are issued by institutions with low credit risk. Proposals to invest in these securities are approved in accordance with the Company's investment policy. The portfolio of investments in debt securities is regularly monitored by the investment and risk management department and reports periodically to the Management. The Company considers the credit risk associated with the Company's debt securities to be low.

Advance proceeds from sale of securities and margin deposits for derivatives trading

Advance proceeds from the sale of securities are recovered directly from the Vietnam Securities Depository and Clearing Corporation. Derivatives trading margin deposits are required to be deposited into this entity.

Vietnam Securities Depository and Clearing Corporation is a state-owned entity and has never fallen into insolvency. The Vietnam Securities Depository and Clearing Corporation requires its members to deposit money into the Settlement Support Fund and the Derivative Securities Clearing Fund to ensure solvency.

Securities companies may only receive orders to buy or sell securities of customers when they have sufficient one hundred percent (100%) of funds or securities and must take necessary measures to ensure the solvency of customers when trading orders are executed. The Company considers the credit risk associated with advances on the sale of securities to be low.

At 31 March 2025 and at 31 December 2024, none of the balances with the Vietnam Securities Depository and Clearing Corporation that were overdue but not yet recovered was subjected for impairment.

as at 31 March 2025 and for the period then ended

34. OTHER INFORMATION (continued)

34.4. *Purposes and policies of financial risk management* (continued)

Credit risk (continued)

Margin trading contracts

Margin trading contracts are secured by securities listed on stock exchanges that are allowed for margin trading. According to current securities laws, the maximum margin lending amount is 50% of the value of securities allowed for margin trading. The list of securities that are not allowed for margin trading is regularly updated by stock exchanges. The Company's list of securities permitted for margin trading is developed, reviewed and updated regularly by the Product Development Department; The Margin Lending and Investment Advisory Council is based on a number of criteria including valuation and liquidity.

The Securities Services Department is responsible for continuously reviewing margin transaction reports including outstanding balance, collateral value and maintenance margin ratio. When the maintenance margin ratio falls below the rate stipulated by the Company (which is built in accordance with internal regulations and not lower than the statutory rate of 30%), the Company's information system will alert and the Company issues an order requesting the client to make additional deposit. When the maintenance margin ratio falls below 30%, the Company is forced to liquidate the collateral to recover the debt.

The market value of total collateral as at 31 March 2025 is VND 18,868,677,454,530 (at 31 December 2024: VND 15,812,357,869,960).

Under current securities laws, the maximum margin loan amount for an individual or an organization is 3% of the equity of a securities company. At 31 March 2025 and at 31 December 2024, no margin loans exceeding 3% of the Company's equity.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

34. OTHER INFORMATION (continued)

34.4. Purposes and policies of financial risk management (continued)

Credit risk (continued)

The credit quality analysis of margin loans at the reporting date is as follows:

	Total	Provisioned	Not overdue and not impaired	Overdue but not impaired			
				< 90 days	91 - 180 days	180 - 210 days	> 210 days
Beginning balance	5,200,189,976,858	6,380,166,000	5,192,804,220,056	1,005,590,802	-	-	-
Ending balance	6,694,431,392,267	6,380,166,000	6,687,916,021,892	135,204,375	-	-	-

Receivables and other assets

The Company limits credit risk by dealing only with counterparties it trusts and requesting security measures when necessary.

As at 31 March 2025 and at 31 December 2024, none of the receivables represented more than 10% of the Company's equity.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

34. OTHER INFORMATION (continued)

34.4. *Purposes and policies of financial risk management* (continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate with changes in market prices. Market prices have different types of risks: interest rate risk, currency risk, and stock price risk.

The Company manages market price risk by analyzing the sensitivity of factors affecting the Company's financial condition and results of operations as at the end of the fiscal period, diversifying its investment portfolio and being prudent in selecting securities to invest in within specified limits and taking hedging measures where necessary.

Interest risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company has interest rate risk mainly related to bank deposits, loans and borrowing.

The Company manages interest rate risk by analyzing the competitive situation in the market in order to obtain interest rates that are most beneficial for the Company's purposes while remaining within the limits of risk management.

The Company's bank deposits, loans and borrowings all have fixed interest rates and short terms, so the risk due to fluctuating interest rates is negligible.

Stock price risk

The shares held by the Company are subject to market risks arising from uncertainty about the future value of investment shares. The Company manages stock price risk by setting investment limits and taking hedging measures when necessary. The Company's Investment Committee also reviews and approves investment decisions in stocks.

As at 31 March 2025, if stock prices rise/fall by 10% (as at 31 December 2024: 10%) while all other variables (including tax rates) remain unchanged, the Company's pre-tax profit will be higher/lower by approximately VND 105,629,307,281 (2024: higher/lower by roughly VND 79,323,460,298). The Company presents these shares in FVTPL and AFS financial asset.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 March 2025 and for the period then ended

34. OTHER INFORMATION (continued)

34.4. Purposes and policies of financial risk management (continued)

Market risk (continued)

Currency risk

Currency risk is the risk that the value of financial instruments is altered resulting from changes in exchange rates. The Company manages currency risk by regularly monitoring the exchange rate situation and updating its cash flow plan in foreign currencies.

The Company's business is subject to risk from a number of foreign currencies, mainly from U.S. Dollars and Euros.

As at 31 March 2025 and 31 December 2024, the Company held only a small number of foreign currencies denominated in U.S. Dollars and Euros so currency risk was non-material.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting financial obligations. The Company's exposure to liquidity risk arises when the Company is unable to meet its financial obligations as they fall due, primarily due to mismatches in the maturity terms of financial assets and liabilities. The maturity terms of financial assets and liabilities reflect the remaining period of financial assets and liabilities from the reporting date to the date of settlement set out in the contracts or terms of issuance. For FVTPL and AFS financial assets, the maturity terms are determined based on the liquidity of the assets (the ability to sell and purchase the assets in short term) on the market.

The Company monitors its liquidity risk by maintaining a level of cash and cash equivalents, borrowings deemed adequate by the Management to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.
