Market outlook

Stock market: VNIndex increased gradually from the beginning of the morning session to the end of the afternoon session and has now surpassed the threshold of 1250. On the market, the cash flow has improved compared to the previous session with 11/19 sectors gaining points. Meanwhile, foreign investors turned to be net sellers on the HSX but still net bought on the HNX. Besides, market breadth turned to a positive status with strong increase in liquidity compared to the previous session. According to the current assessment, VN-Index may experience a struggle at around 1250 next session to test its stability at this point.

Future contracts: All future contracts increased following VN30. Investors might consider selling with target price around 1240 points for long-term contracts.

Covered warrants: In the trading session on April 12, 2021, majority of covered warrants decreased following underlying securities. Trading value increased strongly.
