Market outlook

Stock market: Today, the market experienced a slight correction due to profit-taking pressure after setting a new high in the session. At the end of the session, the VN-Index dropped more than 6 points. In today's session, 8/19 industries gained, led by Industrial Goods & Services and Insurance with an increase of over 1%. Market breadth was tilted to the negative side. Regarding the transactions of foreign investors, today they were net buyers on the HSX and net sellers on the HNX. The market may maintain the movement trend around 1460 points as market liquidity is still at a stable level.

Future contracts: All futures contracts have a slight increase in line with the underlying index. Investors can consider buying short-term futures contracts.

Covered warrants: In the trading session on November 9, 2021, warrants decreased along with the correction of the underlying market. Investors can consider buying short-term futures contracts.
