

STOCK MARKET

VN-Index continued to move sideways today, closing at 1,272.07 points, down nearly 2 points compared to yesterday. 8/18 sectors increased, of which Information Technology, Insurance, and Healthcare led the increase. However, the number of stocks decreasing was greater than the number of stocks increasing, showing that the cash flow was divergent. Regarding foreign transactions, today they were net sellers on the HSX and net buyers on the HNX. The struggling trend at the old resistance level still shows no signs of ending.
