THE MARKET IS NAVIGATING BELOW THE 1,300 LEVEL

Thursday, 20 February 2025

# STOCK MARKET

The VN-Index continued to rise by more than 4 points today, closing at 1,292.98 points. Market breadth was fairly balanced, with 9 out of 18 sectors gaining, led by the Chemical and Real Estate sectors. Regarding foreign trading, foreign investors sold net on the HSX and bought net on the HNX. The index showed quick fluctuations during the session due to profit-taking sentiment in some mid- and small-cap stocks that had surged recently. However, the market trend remains quite stable, supported by large-cap stocks from the VIC group after several sessions of consolidation. Trading speed and liquidity remained at average levels, showing no signs of distribution. The VN-Index is gradually approaching the mid-term resistance level of 1,300 points, but this also puts investors in a position where caution is needed when opening new positions.
