

STOCK MARKET

The bottom-fishing force in the afternoon session helped erase the morning's decline, with the VN-Index rebounding and closing at 1,311.91 points, up more than 2 points compared to yesterday. Market breadth was relatively balanced, with 10 out of 18 sectors gaining, led by the Media sector. Regarding foreign investors' transactions, they were net sellers on both HSX and HNX exchanges today. Large-cap stocks are experiencing positive price rotations, with strong demand absorption at lower price levels, alongside gradually improving liquidity, supporting the VN-Index's movement towards 1,315 points. The market is anticipating a breakout session after establishing a stable base above 1,300 points, which is expected to attract investors back and drive the index toward new highs in the year.
