

STOCK MARKET

After the VN-Index retreated to the 1,300 – 1,305 range, bottom-fishing demand emerged and helped the index rebound by more than 10 points during today’s session. Market breadth turned positive with 11 out of 18 sectors gaining, led by Oil & Gas and Real Estate. In terms of foreign trading, foreign investors recorded net selling on the HSX and slight net buying on the HNX. However, today’s rally carries limited significance as liquidity declined sharply. In the upcoming sessions, the market will need a directional candle accompanied by supportive cash flow to confirm a recovery toward the previous resistance level at 1,340.
