

STOCK MARKET

The market continued to open with a deep gap of nearly 70 points in the morning session. However, strong bottom-fishing demand in the 1,150–1,160 range helped the VN-Index stage a remarkable intraday reversal, closing at 1,210.67 points—narrowing the loss to nearly 20 points compared to the previous day. Market breadth remained negative, with all 18 out of 18 sectors posting declines. Regarding foreign investor activity, they continued to record a net sell of nearly VND 3 trillion on the HSX, while turning net buyers on the HNX. Bottom-fishing sentiment emerged following yesterday’s panic sell-off. However, in the coming sessions, VN-Index movements are expected to remain volatile; the trading range needs to narrow to form a more solid base.

FUTURES CONTRACTS
