

STOCK MARKET

The 1,645 threshold became the resistance level for the VN-Index today. After a day of struggling around this mark, the index closed at 1,643.26 points, up nearly 6 points compared to yesterday. Market breadth was relatively balanced with 9 out of 18 sectors advancing, led by Oil & Gas, followed by Industrial Goods & Services. Regarding foreign investors' activity, they were net sellers across all three exchanges, notably recording a net sell of nearly VND 3 trillion on HSX. The sharp decline in liquidity today indicates lingering market caution. In the coming sessions, the VN-Index may continue to trade within the 1,610 – 1,670 range in search of equilibrium. The trading band is expected to narrow gradually to form a more solid price base.
