

STOCK MARKET

The VN-Index continued to fluctuate around the 1,280 level in today's trading session and closed at 1,279.48 points, remaining almost flat compared to yesterday. The market breadth tilted towards negativity, with 12 out of 18 sectors declining, led by Utilities and Banking. On the other hand, the Insurance and Basic Resources sectors had a positive trading session. In terms of foreign transactions, foreign investors were net sellers on both the HSX and HNX exchanges today. Market sentiment remains cautious due to low liquidity; additionally, today's doji candlestick indicates a balance between sellers and buyers.
