

STOCK MARKET

The VN-Index traded within the range of 1,280 – 1,285 for most of the day and closed at 1,282.78 points, showing little change from yesterday. The number of declining stocks exceeded the number of advancing stocks, with 11 out of 18 sectors gaining ground, led by the Communications sector. On the other hand, the Basic Materials sector experienced the largest decline today. Foreign investors were net sellers on both the HSX and HNX exchanges. The short-term recovery of the market has shown signs of slowing down at the resistance level of 1,285 – 1,290. The VN-Index may continue to consolidate at this level, but it is also important to consider the selling pressure. Investors should trade cautiously.
