

STOCK MARKET

VN-Index continued its inertial decline today to the threshold of 1,220. However, bottom-catching demand here helped the index rise again and close at 1,238.47 points, up nearly 7 points compared to yesterday. Market breadth tilted to the positive side with 14/18 sectors increasing, of which the Chemical increased the most, more than 4%. On the contrary, the Communications continued to lead the decline. Regarding foreign investors, today they were net buyers on both HSX and HNX. The deep correction has shown signs of slowing down, however, bottom-fishing demand is still weak, so investors should trade carefully in the coming sessions.

FUTURES CONTRACTS
