Vietnam Daily Review

Stock market rebounded

BSC's Forecast on the stock market

	Negative	Neutral	Positive
Day 8/2/2017		•	
Week 5/2-9/2/2018		•	
Month 1/2018		•	

Highlights

- Following the recovery at the end of yesterday session, the indexes jumped right after the opening of the green dominated, in which 35 stocks reached the ceiling price.
- The leaders were GAS (+3.64 points), BID (+2.50 points), VRE (+2.26 points), VJC (+1.98 points) and VCB (+1.97 points).
- The laggards were MSN (-1.27 points), NVL (-0.26 points), SBT (-0.18 points), PVD (-0.13 points) and VIC (-0.09 points).
- The recovery was widespread throughout the market with advancers four times more than the number of decliners. The stocks of Banking and Securities led the market with many stocks rising to the ceiling price. However, there were some decliners such as PVD and SBT
- The order matching value of VN-Index in today session reached VND 5,263 billion. The trading range was 14.41 points. Market breadth was positive with 246 shares increased / 58 shares decreased.
- Ending the trading session today, VN-Index increased 28.95 points, closed at 1,040.55 points. Along with that, the HNX-Index rose 3.99 points to 119.62 points.
- Foreign investors today were net sellers with VND 256.49 billion on HOSE, concentrated on HPG (VND 114.4 billion), VHC (VND 61.6 billion) and VNM (VND 60.9 billion). In addition, they bought a net of VND 3.42 billion on the HNX.

Market outlook

Indexes jumped as soon as the session opened. Stocks all together increased to the ceiling price after two previous strong correction sessions. Banking and Securities sectors and a number of stocks in the Real estate sector attracted the large amount of money inflow and increased quite strong. Although the market recovered, the liquidity has not really increased, showing the caution of investors' sentiment. BSC believed that the stock market is still very risky, investors should limit the transaction at this time. In addition, investors may follow the movement of large regional stock markets as well as the US stock market, which may be the basis for investors to determine the market trend.
