**Stock market:** VNIndex was in the red for most of the trading time and has now moved to below 1180. In the market, investment cash flow declined and only 5 out of 19 sectors gained. In addition, foreign investors are still net sellers on both HSX and HNX. Besides, market breadth turned negative with liquidity not much different from the first session of the week. According to our assessment, the VNIndex may continue correcting in the next few sessions but will not fall deeply.

**Covered warrants:** In the trading session on March 16, 2021, majority of coverred warrants decreased following underlying securities. Trading value increased strongly.
