Day 11/8/2021		•	
Week 9/8-13/8/2021			•
Month 08/2021		•	

#### Market outlook

**Stock market:** VThe uptrend continued n today's session. Investment cash flow flew into the market when 15/19 industry groups gained points. Market breadth remained positive with a slight increase in liquidity compared to the previous session, showing positive investor sentiment. However, foreign investors turned to be net sellers on both HNX and HSX. With the above trend, VN-Index is expected to continue moving in the range of 1350-1380 points. The oil and gas industry gained strongly in the session mainly because most of the oil and gas companies announced strong growth in profits in the second quarter compared to the same period last year, notably BSR, PLX, PLC or PVT.

**Future contracts:** Except for VN30F2112, all future contracts decreased following VN30. Investors might consider selling for long-term contracts.

**Covered warrants:** In the trading session on August 10, 2021, majority of coverred warrants decrease following underlying securities. Trading value decreased.
