### Market outlook

**Stock market:** The market had a struggling session around 1300 points. Money flowed into the market when 9/19 industry groups gained points compared to the previous session with the spearhead growth coming from retail and insurance sectors. Market breadth remained negative with market liquidity declining compared to the previous session. Meanwhile, foreign investors were net buyers on the HSX and net sold on the HNX. The struggle around the psychological threshold of 1300 points may continue in the short term as cautious sentiment dominates trading activities in the market.

**Covered warrants:** In the trading session on August 24, 2021, majority of underlying securities increased, while covered warrants diverged in terms of price. Trading value increased strongly.
