Market outlook

Stock market:VN-Index continued to drop more than 4 points today, returning to close below the 1500 mark due to the drop from large-cap stocks when 21/30 stocks in the VN30 group were in the red. Although small and medium stocks had a positive session today, it was not strong enough to pull the index up. Market breadth was quite balanced with 10/19 sectors gaining. Regarding the transactions of foreign investors, today they were net sellers on both HSX and HNX. In the coming sessions, VN-Index is likely to continue struggling within ±15 points range around 1500.

Future contracts: Futures contracts all dropped in line with the correction of the VN30 index, except for VN30F2205. Investors should trade cautiously in tomorrow's trading session.

Covered warrants: In the trading session on March 24, 2022, most of the warrants fell sharply following the movement of the underlying stock.
